Professional Summary

Jessica has over 15 years of experience assisting clients with complex litigation and investigations in the areas of trade forensics and financial regulatory advisory. Ms. Harris serves as an expert and also specializes in supporting analysis for market manipulation, spoofing, and financial fraud and market abuse. In addition, she has assisted counsel with profit and damages calculations for pre-litigation and settlement purposes.

Ms. Harris has worked in the commodities industry for over 15 years, mostly in financial regulation. Her experience includes auditing NFA member firms, assisting external counsel and internal stakeholders on NFA and CFTC compliance and registration requirements, coordinating fraud and market manipulation investigations involving commodities, swaps, binary options, and forex, providing complex trading and statistical analyses in connection with government enforcement actions, developing price impact models for spoofing and market manipulation cases. She has also assessed allegations of back-tested misstatements of performance, and manipulation of positions reports and risk management systems.

Before joining Monument, she was a Managing Director at Chatham Financial and Ankura Consulting. Prior to that, she was a Senior Trading Investigator for the CFTC and Field Supervisor at the NFA.

Ms. Harris has a Bachelor's in Business from Western Michigan University and a Master of Engineering in Systems Engineering from the University of Virginia. She is currently matriculating in a Post-Master's program in Financial Engineering from Stevens Institute of Technology.
